By the Chief, Pricing Policy Division, Wireline Competition Bureau

1. On May 6, 2002, Verizon Telephone Companies (Verizon) filed Transmittal No. 192 to revise its Tariff FCC No.11,<sup>1</sup> Access Service, to become effective May 21, 2002. Verizon proposes to introduce IntelliLight® Broadband Transport (IBT) to its Virtual Collocated Interconnection Service. IBT, among other things, can provide high speed, synchronous, full duplex transmission between a customer designated premises and a Virtual Expanded Interconnection arrangement.

2. The revisions in this transmittal raise the same issues regarding rate levels, rate structures, and terms and conditions of collocation services that are subject to the investigation of the NYNEX Telephone Companies New Virtual Expanded Interconnection Offerings. Therefore, with respect to the rates, terms and conditions affecting Virtual Expanded Interconnection Service, Transmittal No. 192 is suspended for one day and will be subject to the investigation initiated in the *NYNEX New Virtual Expanded Interconnection Suspension Order*.<sup>2</sup> This transmittal will also be subject to an accounting order to facilitate refunds that may later prove necessary.

<sup>1</sup> Verizon Tariff FCC No. 11 was previously Bell Atlantic Telephone Companies Tariff FCC No. 11. This tariff was reissued as Verizon Tariff FCC No. 11 on April 13, 2001 under Verizon Transmittal No. 24.
